2. Execute leases and contracts with other persons and companies, to exercise all such rights and the performing of all such operations and to receive, retain and hold as their exclusive property the full consideration or considerations for such leases or contracts, including bonuses, so-called delay rentals and royalties.

It is specifically understood that at the end of twenty (20) years from this date all interests as above reserved in any or all acreage of the above lands which is not producing, directly or by being included in a well-site or mine-site allocation by State or Federal authority, or by being included in a unitized area, or which is not being held under lease because of production or drilling operations shall automatically terminate. Thereafter the reservation shall automatically terminate as to any acreage when production ceases or the drilling in progress at the end of the twenty (20) year period does not result in production. Upon the termination of the reserved mineral interest, the grantors, or their heirs, successors, assigns and lessees, shall have a reasonable time to remove all machinery and fixtures placed on the premises by them and shall have the right to draw and remove casings.

The limitations as to twenty years in the foregoing paragraph does not apply to lands in Louisiana.
