RE: Yandell Road

In an effort to begin rectifying the traffic problems identified in the recent traffic study for Madison County, Stantec is being tasked with designing the intersection improvements to include widening Yandell Road at the intersection of Highway 51.

This scope of work will include design, surveying and geotechnical services. It is anticipated that no right of way acquisition will be required. The project should be ready to go to construction by Spring, 2017. The fee for these services is not to exceed \$80,000.00.

Therefore, it is recommended that the Board grant authority to Stantec to move forward with this project, contingent on Legal's approval of the contract.
