Subject: Switch from curbside recycling to drop-off container recycling

Dear Board Members:

The following board action is needed to perfect the planned switch from curbside recycling to drop-off container recycling effective January 1:

- (1) Authorize giving the required 60-days notice to cancel the curbside recycling contract with Waste Management effective December 31.
- (2) Authorize an initial order of four drop-off recycling containers and associated haul service from Waste Management at the rate of \$120 per container per month and \$395 per haul (emptying). The anticipated delivery time of the containers is 60 days.

Sincerely,

Hardy Crunk
Purchase Clerk
