Canton, MS 39046

Dear Mr. Baxter:

Re: Davis Crossing Road Diagnostic Review Recommendations

A Diagnostic Review at the Davis Crossing Road grade crossing (US DOT# 299 742W) was conducted on September 27, 2016. As a result of the review, the following changes are needed to bring this location into compliance with the 2009 Edition of the Manual on Uniform Traffic Control Devices (MUTCD):

A Highway-Rail Grade Crossing Advance Warning sign (W10-1) should be installed in advance of the crossing on the east and west approaches. Placement of the advance warning signs must be in accordance with Condition B, 0³ of Table 2C-4 on Page 108 of the 2009 Edition of the MUTCD. For convenience, here's an illustration of a W10-1:

W10-1

Mr. Trey Baxter
