RE: FAS Faurecia Madison  
Expansion- Zoning Variance and  
Approval  
Project No. 016-01242-01

Dear Scott

It was a pleasure speaking with you this morning and I thank you again for your time and effort in describing the procedure for gaining approval for a zoning variance for the above referenced project.

As we discussed, it is our intent to seek approval from the Madison County Board of Supervisors to allow the proposed expansion to have a building height exceeding the 35 foot maximum height in an I-2 Heavy Industrial zoning district as required by the Madison County Zoning Ordinance (February 2013), Article XXI, Section 2103- Dimensional Requirements, Paragraph 2103.01- Maximum Height.

The proposed expansion is a 12,800 sf warehouse housing an Automated Storage and Retrieval System which requires a minimum of 33 foot clear height. This results in an overall building height of 40 feet at the roof high point when considering the equipment clearance limitations, structural roof framing, sprinkler system clearances and roof slope.

In an effort to proceed with the approval process, we have included with this letter the following:

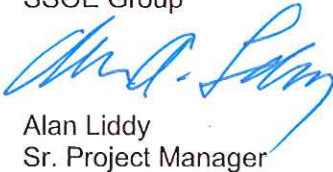

- Eight (8) Sets of 11 X 17 hardcopies of the project drawings.
- One (1) set of 30 X 42 full size hardcopy of the project drawings.
- One CD containing electronic files of the project site's legal description in Word format and a PDF format of the above drawings for your use.
