Subject: GIS tracking devices for county vehicles

Dear Board Members:

The board recently requested pricing to outfit all county vehicles (Sheriff's Dept. vehicles excluded) with GIS tracking devices similar to the ones already installed on some Road Department vehicles.

The cost has two components: (1) an initial equipment cost for the GIS devices and wiring harnesses and (2) a monthly GIS-tracking charge. The following totals would vary slightly due to the constantly changing number of county vehicles and the particular wiring harness required for each vehicle.

**General County** (excluding Sheriff, Road, and fire trucks)

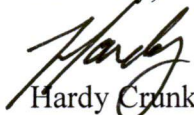

Equipment cost for 34 vehicles (\$119.90 per vehicle)	\$4,076
Monthly GIS tracking fee (\$25 per vehicle)	\$850

**Road Department**

Equipment cost for 32 vehicles (\$119.90 per vehicle)	\$3836
Monthly GIS tracking fee (\$25 per vehicle)	\$800

The Road Department's monthly fee would be in addition to the \$729.42 that it currently pays for tracking and locating services on 33 vehicles and pieces of heavy equipment. The Road Department's new monthly GIS tracking fee total would be approximately \$1,529.42.

Sincerely,

  
Hardy Crunk  
Purchase Clerk
