

## MADISON COUNTY BOARD OF SUPERVISORS INFORMATION TECHNOLOGY DEPARTMENT

April 17, 2017

To the Board of Supervisors,

Subject - Flora Tax Office Data Circuit Upgrade

The Flora tax office needs a data circuit upgrade due to the following:

In October, the state Department of Revenue is rolling out a new web-based tax application that will be used by the county tax collector's offices. The new application will require more data bandwidth than is currently utilized in the tax offices. The Madison tax office upgrade has already been approved and is under way. The proposal and request today is to upgrade the connectivity to the Flora tax office.

A quote is attached reflecting the monthly cost of this upgraded circuit.

Duane Thompson

IT Director
