Re: Gluckstadt Fire Station #3 (sewer service)

Dear Danny:

As discussed, pricing for sewer service is as follows:

Sewer impact fee - \$900.00
Sewer connection fee - \$1000.00
Estimated construction costs - \$12,813.00 (estimated)
10% construction contingencies - \$1281.00
Engineering and permitting - \$1410.00

Richard Womack Construction, LLC has already deposited \$1410.00 (see engineering and permitting above) with Bear Creek Water Association. Sewer is not currently on the property, so the plan is to extend service to the property and set a new manhole on the south side of Yandell Road as we have discussed with the contractor.

If you have any questions, please don't hesitate to call.

Sincerely,

Nolan P. Williamson, P.E.
General Manager
