Re: Property Access Agreement for Remedial Excavation and
Ongoing Assessment and Monitoring Activities

Dear Mr. Vance:

Terracon Consultants, Inc., (Terracon) has been retained by the Mississippi Department of Environmental Quality (MDEQ) to complete environmental assessment and remedial action at Mac's Food Store located at 3497 North Liberty Street in Canton, Mississippi 39046 (MGPTF Facility ID No. 10363). In order to complete the assigned tasks, we need to access your property located at 110 Martin Luther King Drive.

We are contacting you to obtain access and right of entry to your property as needed to implement remedial action, conduct additional assessment and perform groundwater monitoring activities as directed and overseen by MDEQ; both Terracon and MDEQ would greatly appreciate your cooperation regarding this matter. As you are aware, remedial activities via excavation of contaminated soils have already occurred, future activities may include drilling and installation the additional groundwater monitoring wells. Following installation, Terracon will need to access the wells on your property periodically, typically a few times a year for the duration of the project, for data collection purposes.

While all reasonable precautions will be taken to minimize damage to the property, it is understood that in the normal course of work some surface damage may occur. The correction of minor surface damage is not part of this agreement. Any major surface damage due to well installation activities will be corrected by Terracon personnel or subcontractors; we hope the recent remedial actions and associated surface repair is an example of our quality of work.

We truly appreciate your cooperation in providing access to this property and are willing to answer any questions regarding this project. I have included a self-addressed stamped envelope for you to return the signed agreement to us. Please direct any questions concerning this project or the access / right of entry agreement to me at 769-233-2073 or via electronic mail at knox.strickland@terracon.com.

Terracon Consultants, Inc.

Knox Strickland
Environmental Scientist/Geologist

Charles K. Brown, RPG
Environmental Department Manager

Access / Right of Entry is Authorized Pursuant to this Agreement:

Name: _____ Signature: _____
