

# Madison County Emergency Management Agency

February 5, 2018

The Office of Madison County E-911 would ask the Madison County Board of Supervisors to acknowledge changes made to Rose Dale Road on behalf of Ms. Lucile Stallings. There was a confusion on where Bilbrew Road ended and where Rose Dale Road Began. Madison County E-911 investigated all documents on file with the County and have determined that Bilbrew Road should begin right off Robinson Road and extend for the distance of 3005 feet (0.6 miles) where it would end just past the property line of the Bilbrew family property. This would enable the Bilbrew family to maintain a Bilbrew Road address. From this point, Rose Dale Road would start and continue for 1700 ft. (0.3 miles). For approximately 880 ft. (0.16 miles), Rose Dale Road would be a Public Road and from that point to the end of Rose Dale Road, it would be a Private Road. This change was to give Ms. Stallings' family a namesake road and allow each house to have an individual address.

Since then, Ms. Stallings' family has decided that they never wanted or intended for their driveway to be part of the Rose Dale Road. The confusion started when they wanted Rose Dale Road to end at the beginning of their driveway, but keep Rose Dale Road 1700 ft. in length. This would have changed Bilbrew Road from 3,005 ft. in length to 2,215 ft. in length which would have given one of the Bilbrew family property owner's address a Rose Dale Road address.

Madison County E-911 has determined that Bilbrew Road should continue to remain at 3005 ft. (0.6 miles) in length and Rose Dale Road would start and continue from that point. Ms. Stalling was given the choice to keep Rose Dale Road at 1700 ft. in length which will keep both houses located on the private section of the road with a separate numeric address; or, change the length of

Rose Dale Road to 880 ft. which is where the Public Section of the road ends. This change will require both houses located on the private driveway to share the same numeric address separated only with a letter suffix. Ms. Stalling chose the latter.

The Office of Madison County E-911 is now asking the Madison County Board of Supervisors to:

1. Acknowledge the Bilbrew Road will start at Robinson Road and will continue to the distance of 3005 ft. (0.6 mile) at which point it shall end which will also be the same point where Rose Dale Road shall begin.
2. Change Rose Dale Road from being a combination Public/Private Road with the distance in length of 1700 ft. (0.3 miles) to a Public Only Road for a new distance in length of just 880 ft. (0.16 miles) where it will end with the remaining section reverting back to a Private Driveway.

Respectfully yours,

Minor Norman  
Madison County 911 Director
