

AEM, LLC
ADAPTS Electronic Monitoring, LLC

Date: 2/14/2018

To: Madison County Courts

This writing is to confirm the readiness of the engagement between AEM and Retired officer Allan McGregor to provide in field support for the Courts and Law Enforcement of Madison County, MS.

We stand ready to provide installations and removals as required by the courts.

The rates for service are as follows and are in addition to the daily monitoring rates already in place for our EM services.

In county
7 am through midnight \$50
Midnight through 7 am \$75

The pricing is predicated on the low likelihood of multiple installations at the same time. Should the court engage in a manner that begins to drive a higher unit count and/or greater numbers of installations at a time we will gladly discuss a review of the pricing and a model that is fair and effective for the county.

The billing for the installations includes removal and maintenance. The expense will be applied and itemized on the monthly billing.

Regards,

Van Hopkins
