Re: Northwest Villa
Rehabilitation of an eighty (80) unit multi-family development to be located in Madison
County

Gentlemen:

We are aware that you are applying for housing tax credits in order to acquire and rehabilitate the above-mentioned development.

Madison County does not currently have a community revitalization plan. However, Madison County is in favor of this proposal and we support the Developer's plan to acquire and rehabilitate an eighty (80) unit multi-family development in our community. We have identified a need for affordable housing within Madison County, and your proposal supports our vision for future growth and expansion by offering to provide decent and safe rental housing in our community.

We appreciate your interest in Madison County and fully support your proposal.

Yours very truly,

Paul Griffin

Madison County Board of Supervisors District Five
