Subject: Consideration of Declaration of Refurbished Sealable Hard-Sided Tote Bins as Sole Source

Dear Board Members:

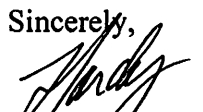

The Election Commission has requested that I purchase 50 refurbished sealable hard-side tote bins for use with the precinct scanners. The county currently has one sealable hard-side tote bin for each scanner. Our current sealable hard-side tote bins were purchased as part of the turnkey bid when the scanners were purchased. The extra set would be used for runoff elections so that the first primary ballots would remain sealed in their original tote bins.

The bins that the Election Commission requested would cost \$8,250, which is greater than \$5,000 and normally requires two quotes. I searched to find a second quote for sealable hard-side tote bins as depicted in the attached picture but was unable to do so. Many vendors sell soft-sided sealable ballot storage containers; however, the Election Commission objects to using soft-sided ballot storage bins because they won't stack well for storage.

The board has two choices: (1) declare the refurbished sealable hard-side tote bins proposed by ES&S as a sole source, or (2) purchase soft-sided ballot storage containers for any runoff elections.

Attached are copies of Commissioner Pat Truesdale's request, ES&S's quote for refurbished sealable hard-side tot bins, a picture of ES&S's sealable tote bin, and copies of several offerings of soft-sided ballot storage containers.

Mrs. Truesdale will be at the April 16 board meeting to answer any questions the board may have about this request.

Sincerely,

Hardy Crunk
Purchase Clerk
