Re: Consent
Road Registry Change

Our office has received an application requesting a private road be made public and entered into Madison County Road Registry. This section of private road extends off of the end of Quail Road located off Hwy 43. Quail Road is currently a public road and the request is to include this section, currently established as a private drive, as part of the public road way of Quail Road and extent the road range. I have attached a map and the application for review.

It is this office's recommendation that the Board of Supervisors proceed in forming a committee to review application and roadway segment in order to make a motion accepting the applicant's request based upon the review.
