Bear Creek Water Association Member:

RE: Monthly Fire Protection Service Fee

Bear Creek Water Association will immediately be instituting a new fee. This fee will be reflected on the next bill that you receive. The fee is for the purpose of collecting an appropriate monthly charge for those few customers who have on-premise fire protection apparatuses that are owned and/or maintained by Bear Creek Water Association. This includes on-premise fire hydrants, fire loops, and backflow preventers. The fee will be a monthly charge of \$25 per apparatus.

The purpose of this fee is to provide an equitable charge for the maintenance required on this on-premise infrastructure. This maintenance is for ongoing repair, replacement, or testing of these items by Bear Creek Water Association.

If you have any questions, please feel free to call me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Nolan P. Williamson", is written over a horizontal line.

Nolan P. Williamson, P.E.
General Manager
