Re: Madison County and Illinois Central and Railroad Company Agreement
Weisenberger Road Project

In the discussions with the Illinois Central & Railroad Company (RR) pertaining to the flooding on Weisenberger Road, the flood study shows that the bridge opening under the tracks, south of Weisenberger, needs to be closed. As a result, the County and RR have agreed to share costs at 50% each, or \$98,850.00, with the RR performing the work required to close the opening.

Therefore, it is the recommendation of the Engineering Department for the Board President to be authorized to sign the Agreement between Madison County and the Illinois Central & Railroad Company and for the County to pay \$98,850.00 in order to move forward with the Weisenberger Road Project.
