

Proposed Approval for Road Right-of-Way Trash Pickup

Whereas, the Velma Jackson Foundation has requested permission to routinely collect trash and debris from the right-of-way of Loring Road (From Velma Jackson High School east / northeast to State Highway 17) to demonstrate their community pride. The Board of Supervisors does find it in the best interest of Madison County to allow the Velma Jackson Foundation to collect such trash and agrees to provide garbage bags and up to 15 safety vests and trash picker sticks in exchange for this service being provided to the County.
