Bio

Tracy Bailey is a builder. He builds buildings, relationships, deals and careers. Whether laying the foundation for a building, a friendship, or a mentee's success, the resulting structure is strong because what Tracy builds best is trust. Throughout his career and now with White Construction Company Tracy has acquired a robust infrastructure of clients, architects, sub-contractors and colleagues in the construction industry by sharing *good advice* based on solid technical experience. Tracy's unwavering integrity and a careful eye for detail developed through 38 years of hard work have established him as a matchmaker. He matches client's needs with the very best built options. "*Every detail. Every project. Every time.*"

Beginning as a Senior Project Manager in 2007, Tracy brought to WCC 24 years of experience in the construction industry. In 2015 he moved up to Director of Preconstruction Services in the Mississippi office and was promoted in 2016 as Vice President of Pre-Construction Services. Tracy works in all the states that WCC operates but calls Madison County home. Tracy is a team builder who believes that the best way to achieve his clients' goals is to gain a thorough understanding of their wants and needs at every stage of the process with attention to detail and a passion for excellence. "I love working with clients, listening to their dreams, and telling them the WCC story" Tracy says. When away from work, he likes to spend time with family, working on his tree farm and long walks on the beach with Susan, the love of his life and wife of 37 years.
