Scott,

I know your Mondays are extremely busy, but if you could give me a call today or tomorrow at your convenience, that would be great!

Best,

Cara Leuck, P.E. | Staff Engineer

Subject: Fastenal - Parking Requirement

Good Morning, Scott,

Please see attachment. We're requesting to only install the section of parking south of the future miniload, 122 spaces, at this time. Since they will be starting out with approximately 30 employees when they open, they won't be needing nearly as much parking as is required, even considering shift changes. Is this something that can be approved without a variance, or will we need to go through that process?

Thanks for your help,
