RE: Sulfer Springs topo of 13+/- acres for building

Dear Mr. Lee,

As per your request to have the area you require topo surveyed, I estimate the cost to be \$2500.00.

This will provide you with 1 foot contours and all man made features, any large and free standing individual trees not in the highway Right of Way and any utilities visible at the time of the Survey.

Please be aware, Mississippi One call places a low priority on requests for surveying for design purposes, causing a delay of 10 days to 2 weeks before they are required to have the utilities marked. This causes undue scheduling issues and possible multiple trips and I cannot be responsible for unmarked utilities on my work product.

Therefore, I believe you would have much more respect, and a speedier response if you made the call, depending on how you deliver the request, possibly mentioning the dirt moving that is ongoing.

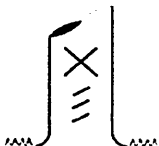

If you should have any questions, please do not hesitate to contact me.

Sincerely,

Richard T. Tolbert, PLS
