Public Notice
Mississippi Environmental Quality Permit Board
P. O. Box 2261
Jackson, MS 39225
Telephone No. (601) 961-5171

Public Notice Start Date: February 19, 2019

MDEQ Contact: Carter Cress

Madison South Rubbish Land Fill Inc, located at 2950 North County Line Road in Ridgeland, Mississippi, telephone No. (601) 981-5588, has applied to the Mississippi Department of Environmental Quality for the following permitting action(s): reissuance of water permit No. MSS060330. The applicant's operations fall within SIC Code 4953.

This facility consists of an existing surface mining operation and a Class I rubbish disposal site. Mining operations are limited to surface extraction of select fill dirt. As part of the mining reclamation activities, a portion of the site has been converted to a rubbish disposal landfill. Surface mining operations and rubbish disposal operations are performed concurrently at different locations on-site.

The reissued permit will govern the facility's storm water runoff. Three (3) outfalls are identified in the permit. A sedimentation pond is associated with each outfall. These outfalls will allow the discharge of non-contact storm water to an unnamed tributary of Limekiln Creek. The receiving stream is located in the Big Black River Basin. The permit requires the periodic monitoring of storm water runoff for the following: total suspended solids, turbidity, and pH.

The staff of the Permit Board has developed this draft permit based on information submitted to the Permit Board by the applicant, appropriate State and Federal agencies, and other interested parties. The staff of the Permit Board is soliciting all relative information pertaining to the proposed activity, including public comment, to ensure that the final staff recommendation on the draft permit complies with all State and Federal regulations. Public review and comment on the draft permit and supporting documentation is an important element in the staff evaluation and resulting recommendation to the Permit Board. The draft permit conditions have been developed to ensure compliance with all State and Federal regulations but are subject to change based on information received as a result of public participation.

Persons wishing to comment upon or object to the proposed determinations are invited to submit comments in writing to Carter Cress at the Permit Board's address shown above, no later than the end of the thirty (30) day public notice. All comments received by this date will be considered in the formulation of final determinations regarding the application(s). A public hearing will be held if the Permit Board finds a significant degree of public interest in the proposed permit(s). Persons wishing to request a public hearing may do so by submitting that request in writing to Carter Cress or the Chief of the Environmental Permits Division at the address shown above. The Permit Board is limited in the scope of its analysis to environmental impact. Any comments relative to zoning or economic and social impacts are within the jurisdiction of local zoning and planning authorities and should be addressed to them.

Additional details about the application(s), including a copy of the draft permit(s), are available by writing or calling Lorenzo Boddie at the above Permit Board address and telephone number. Additionally, as a courtesy, for those with Internet access, a copy of the draft permit(s) may be found on the Mississippi Department of Environmental Quality's website at: <http://opc.deq.state.ms.us/publicnotice.aspx>. This information is also available for review at the following location(s) during normal business hours:

Mississippi Department of Environmental Quality
Office of Pollution Control
515 E. Amite St.
Jackson, MS 39201

Elsie E. Jurgens Library
