Subject: Declare Upgrade of DCS Software at Sheriff Depart a Sole Source and Authorize Purchase of same.

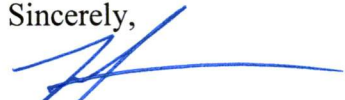

Gentlemen:

The Sheriff's Department has secured money from the state's Wireless Communications Fund to upgrade the RMS Module of its DCS software. The DCS software is copyrighted by DCS, Inc. and cannot be upgraded by any other vendor. A statement to this effect from IT Director Duane Thompson is attached.

I therefore recommend that the Board declare the request upgrade of the RMS Module of the sheriff's Department's DCS software to be a sole source item only available from DCS, Inc. and authorize purchase of same.

Thank you in advance for your consideration of this recommendation.

Sincerely,

Hardy Crunk
Purchasing Clerk

Subject: RE: Software upgrade at SO

No. This is an upgrade to a piece of the DCS application that is already in place.

Subject: Software upgrade at SO

This is a software upgrade to the RMS module of the DCS software.

This includes records management, investigations, narcotics, civil process, CAD, inventory, and personnel sections of the DCS system software we currently run at the Sheriff's Department.

It converts the green-screen interface to a windows type interface.

The CAD Module (used in the radio room) and the JMS module (used at the jail) have both been upgraded over the past couple of years to this same type interface.

This new upgrade will bring RMS (reporting system) up to the same version level.

Req.#0130520 Diversified Computer Systems total amount \$76,800.00

Hardy:

This is a single source vendor to upgrade our current computer system. This is the one I called you about a couple of weeks ago. We have sought and received funds from the wireless communication fund to pay for this requisition. The check has been received and will be delivered to Shelton, per his instructions I am requesting the purchase order now and he will use funds received to pay for upgrade. Call me if you have any questions. Thanks for your help!
