MEMORANDUM

May 14, 2019

To: Sheila Jones, Supervisor, District I
Trey Baxter, Supervisor, District II
Gerald Steen, Supervisor, District III
David Bishop, Supervisor, District IV
Paul Griffin, Supervisor, District V

From: Dan Gaillet, P.E. 
County Engineer

Re: Sink Hole
111 Channing Circle
Harvey Crossing

A sink hole has formed due to the failure of a pipe that carries roadway storm water from Channing Circle, across property at 111 Channing Circle.

The Engineering Department has determined that the pipes have separated which is causing dangerous sink holes and repairs should be made to ensure that storm water is moved from point-to-point to prevent damage to the roadway and further damage the storm water system.

It is the recommendation of the Engineering Department that Blurton and Banks be hired to perform the repairs, for a fee not to exceed \$7,800.00

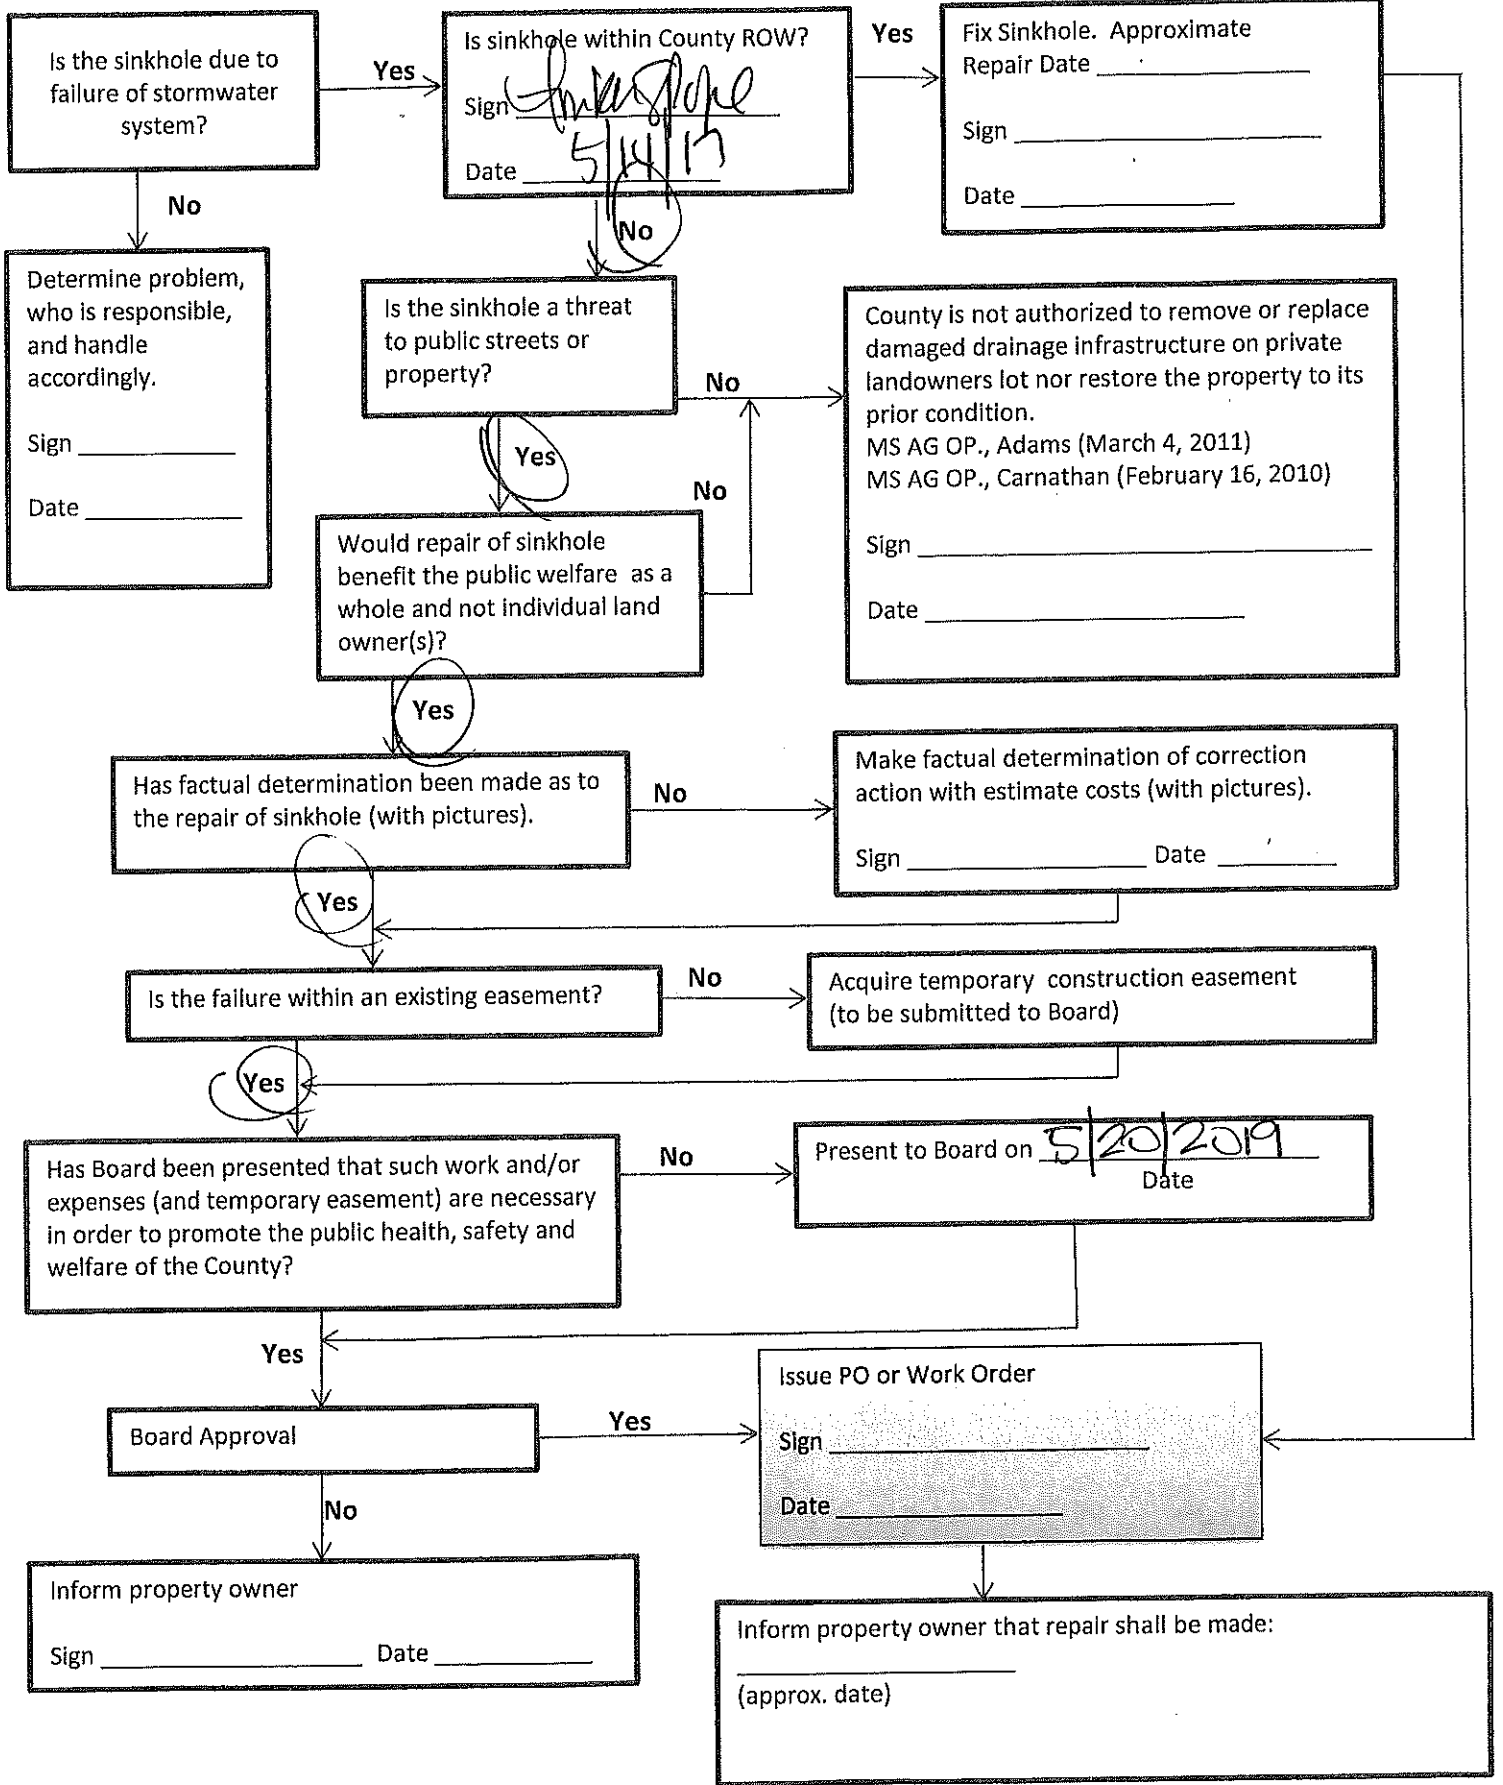

Therefore, it is in the best interest of the County and the public's health, safety and welfare to make the repairs, based on:

- Separated storm water pipes;
- Water is unable to flow freely; and
- Large sink holes have formed over the pipe failure.

SINKHOLE FLOW CHART

LOCATION: 111 Channing Circle
