Re: Docket No. 2019-UA-69, *Petition by Entergy Mississippi, LLC, for a Certificate of Public Convenience and Necessity to Continue Investment in and Modernize its Infrastructure and Support Economic Development in Madison County, Mississippi*

Dear Landowner:

As you may recall, back in October 2018 Entergy Mississippi invited you to an open house meeting introducing a new transmission project designed to enhance the reliability of service to customers and support economic development in central Mississippi. At the meeting Entergy showed a number of different routes for three new proposed 230kV transmission line segments in Madison County. You were provided notice as a directly affected landowner with property near one of the proposed alternative routes.

Entergy Mississippi has filed with the Public Service Commission the information necessary to obtain approval for this project, including the preferred route along which the 230kV transmission line segments will be constructed. The purpose of this letter is to inform you that the preferred route is **NOT** on any part of your property.

However, if you would like to contact the Public Service Commission about this project, please reference Docket number 2019-UA-69.

Should you have any questions, please feel free to contact us by calling 1-800-595-7134.

Sincerely,

*Jeff Flowers*
