

North Madison County
Excel By 5

Excel By 5 is an innovative early childhood community certification process focusing on a community's young children. It emphasizes the important role parents and early childhood educators play in the lives of children during their most formative years – birth to age 5.

North Madison County is a Certified Early Childhood Excel By 5 "Child-friendly" Community.

Excel By 5 is challenging the entire community – parents, educators, and community members – to help each child in the area to reach his or her full potential. It isn't just one person's job to educate our youth. It's the job of everyone.

We need your help!!!!
