December 5, 2018

Hon. Sheila Jones, Board President  
Madison County Board of Supervisors  
125 West North Street  
Post Office Box 608  
Canton, Mississippi 39046

Re: Disposition of TSX Voting Machines

Dear Ms. Jones:

We are in receipt of your letter dated September 4, 2018 regarding the intention of Madison County to dispose of its TSX Voting Machines, some which were acquired from the State of Mississippi in connection with its statewide bulk purchase of the same in connection with the implementation of the Help America Vote Act and others which were purchased by Madison County by its own funds.

Given the restrictions imposed upon voting equipment purchased with federal grant monies, such as those 164 of Madison County's TSX Voting Machines purchased by the State, we will accept the return of these machines to its inventory. With regard to the 148 TSX Voting Machines purchased by Madison County, the State has no objection to the County's decision to sell or otherwise dispose of the same if the archive on each machine has been cleared and deleted of all stored electronic ballot images.

As we discussed with the Hon. Katie Snell, the Board's Counsel, each voting machine retains an image of every electronic ballot cast unless and until the archive is deleted and cleared. It is our understanding, none of the archives of these machines have been deleted or cleared as of the date of our conversation with Ms. Snell. According the State's Retention Schedule, ballot images archived on the TSX Voting Machines are to be retained for two (2) years after the certification of election results. After that period of time, such ballot images are to be destroyed.

Madison County may certainly proceed to sell or otherwise dispose of its TSX voting machines after our office has been provided with a written certification that the archive of each TSX voting machine it intends to sell has been successfully cleared of all ballot images. If you should have any questions, do not hesitate to contact Kim Turner with the Elections Division at [kim.turner@sos.ms.gov](mailto:kim.turner@sos.ms.gov) or (601) 359-5137.

Sincerely,

A handwritten signature in black ink, appearing to read "Delbert".

**Subject:** Voting machine clearing

Bill called me back today.

They have a special piece of software on a card that will clear the machines without taking them apart.

If they do it, he estimates 5 days at \$835.00 per day...so you can do the math.

The other option we may have is that Bill said he would let me use the cards with the software as long as I sign an agreement not to duplicate them and that I will return them when done.

We would have to get someone to assist with standing up and plugging in the machines. We can daisy chain about 6 at a time to do this.

If we want to do this, I would suggest we get the cards from Bill and hire Roddrick Greene (who used to test machines and still works elections under contract) at \$25.00 / hr. to do this for us.

Bill said he would come out and show us how the clear process works to get us started.

Bill is going to follow up with an email regarding all of this.

**Subject:** FW: Estimate from MDS

Hi Mr. Thompson,

I hope all is well? The hard drives we shred on site the voting machine we bring back here and take apart then we shred everything except the LCD and battery. We work with a local Voting machine company so we are very experienced with destroying these units.

If you have other equipment please just give us notice so we are prepared. Your voting Machines, How are they stored now? Are they on the base or the base is still with them. Any way you can send me a picture so I can gauge truck space.

Thank you again,.

Thank You,
