RE: Lighting Evaluations

Gentlemen:

The LED Lighting program for the four fire stations you had inquired about will work according to the following:

Omega Electric will visit each site to verify all lighting inside and outside to determine the replacement process needed to convert to led fixtures. Our charge for this will be \$85.00 per hour.

An Entergy Solutions representative will also make a site visit for the fixture audit.

This information will be used to determine the best fixtures to use and obtain the dollar amount that will be issued back to Madison County as an incentive. Omega Electric will then provide Madison County a cost of replacing the fixtures and incentives.

If you have any other questions please feel free to contact me at your convenience.

Thank You

Kevin Holder  
Omega Electric, Inc.
