Application For Conditional Use Permit
Woodrow Williams Property
Parcel# 093A-11 -004/01.00
Madison County

The property owned by Woodrow Williams contains 15.90 acres as calculated. The legal description is Parcel ID 28560 described as 16.61 acres in West half of Northwest quarter North and West of road-Hwy 43. I plan to initially apply for a 4 acre exempt mining permit while I pursue a mining permit on up to 10 acres as dirt and grade permit. The front of the property sits 8 to 12 feet above the roadway. I plan to cut this high grade down to a plateau that is 2-4 feet above the road, making it much easier for later development. There will remain a barrier restricting water from draining to the road way while mining is ongoing. At some later point, in coordination with the highway department, this barrier will be cut down and blended in to the finish grades of our property. Drainage during mining will be directed to the northwest to a retention pond we will excavate as an initial step of preparation for silt retention. All traffic will enter and exit on an existing drive that will be fortified with #3 limestone to act as our construction drive. Hay bales and silt fencing will be installed in the ditches of the construction drive to prevent silt from entering the roadway. Parking will be maintained inside the permitted area. There is also an asphalted staging area just north of the entrance to the property that could be used for parking with the county's permission. Dust control will be handled as needed with the aid of our water truck. After mining is completed topsoil will be spread and seed and fertilizer will be distributed over the property to insure that permanent grass is established.

Sincerely,

Bobby Armstrong
