Re: Address Discrepancies
Dry Creek Road

It has been brought to our office's attention about an error in addressing on Dry Creek Rd. After a site visit, we have discovered the section of Dry Creek Road from Hwy 43 to the intersection of Potluck Road has many addresses that are using incorrect numeric and are out of alignment. Further, there is new proposed construction that is awaiting address assignment in which the numerous errors in the existing addresses are hindering.

Because the most important function of an E911 address is for the purpose of emergency services, our office feels this area needs to be readdressed correctly. Readdressing will result in a change of numeric addressing for several of the residents in this area, but we feel it is the best option to serve this area. All residents will be notified through the mail service of the change and our office will work to supply any affected with sufficient paperwork to help make the transition.

We are seeking approval from the Board to readdress the above-mentioned portion of Dry Creek Road for the purpose of emergency services.
