February 9, 2022

Shelton,

Madison County uses internet connectivity for many things throughout the county offices. MEC, SEMS, Livestream, email, and offsite backup storage just to name a few.

With the continuing important usage of internet in the various Madison County offices, the IT department is proposing that we add a 2nd internet circuit in conjunction with the upgrades to our data network that was approved last year.

Please find attached a quote for a gig speed internet circuit from Cspire. Adding this circuit and service will not only give us more bandwidth, but will provide redundancy and failover capability in conjunction with our existing AT&T internet circuit.

We are saving enough on the data network monthly by switching to CSpire to more than offset the cost of the new proposed internet circuit.

Thank you for consideration of this request.

Duane Thompson

IT Director
