Re: Request to Modify the Subdivision Regulations for Madison County

The Engineering Department is requesting to modify Section 203: Exceptions to Filing Plats of the Subdivision Regulations of Madison County to exempt major facilities associated with public and privately-owned utilities from having to file a plat. This would become section 203.04 and would read as follows:

203.04 Major facilities associated with public and privately-owned utilities (electrical, natural gas, telephone, water) including but not limited to electrical substations, telephone communication centers, microwave towers, cellular telephone towers, natural gas pumping facilities, water wells and similar significant uses.
