To whom it may concern:

Mrs. Angela Patridge is a patient of mine who would benefit by living closer to siblings/ family members to assist with her activities of daily living. The patient has high risk of falling and has difficulty ambulating due to chronic arthritis in ^{Left} knees. She also suffers from bipolar schizophrenia and depression. Mrs. Patridge is dependent on family.

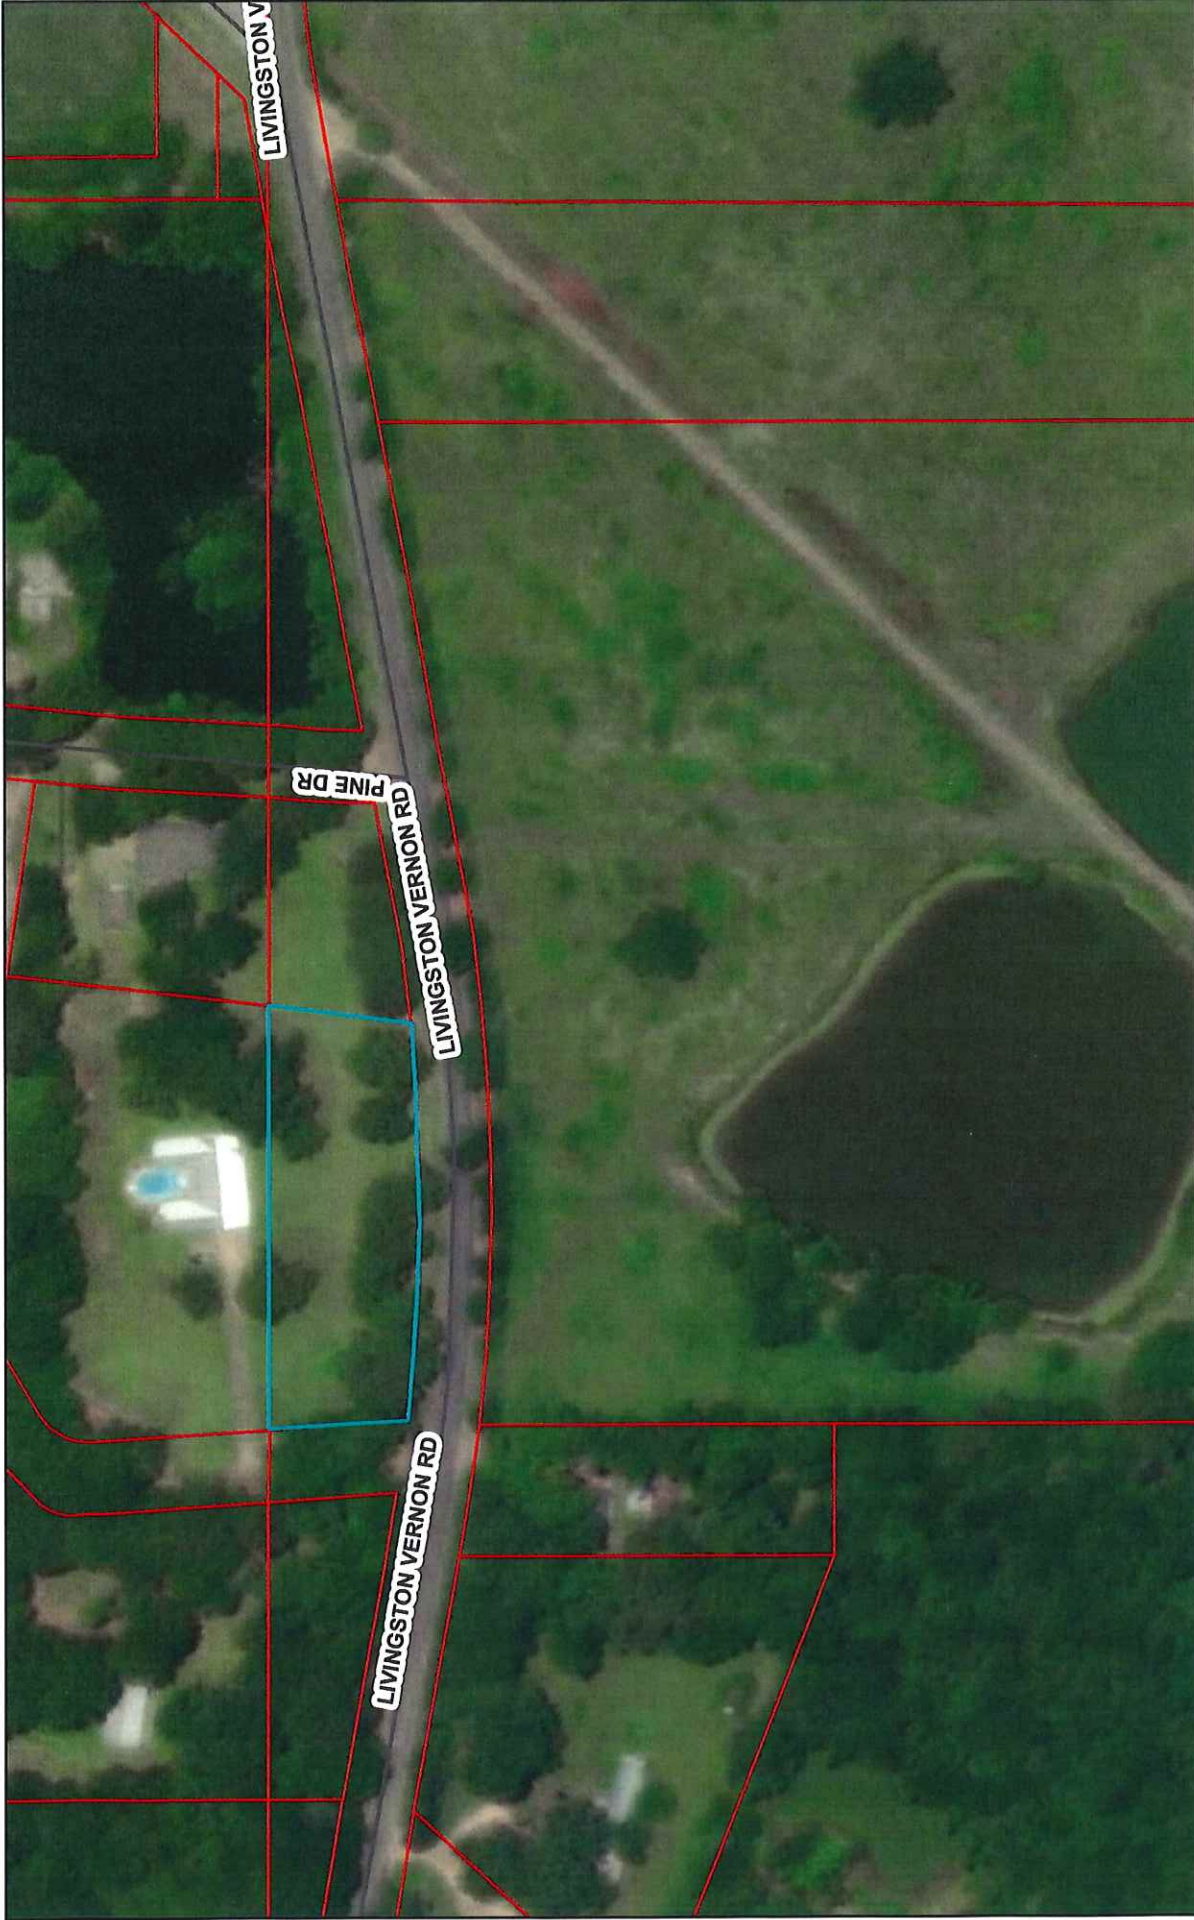

I appreciate your help regarding this matter.

A handwritten signature in black ink, appearing to read 'Benjamin Lambert', written over a horizontal line.

Dr. Benjamin Lambert M.D.
