Attn: Madison County Board of Supervisors,

The town of Pickens needs a fire engine and any equipment that would help our fire department perform more effectively when attending fire calls. Our engine has been out of compliance for years. The town is required to obtain a fire engine as soon as possible, preferably less than 20 years old to avoid insurance rates increasing for our citizens who are mostly retired or on disability. Obtaining one will give us more time to apply for a new truck through a grant. Thank you for your help with this matter which is very much appreciated.

With Kind Regards,

Mayor Paulette Moore
