Madison County is currently under contract with Southern Tire Recycling, LLC for waste tire container rental, pick up and disposal at two locations in the county. As of the last Request for Payment submitted to MDEQ on Waste Tire Grant #675 there should be a balance of approximately \$10,218.50. Madison County would like to extend the grant to expense the remaining balance on the waste tire program.

Sincerely,

Gerald Steen, Board President
Madison County Board of Supervisors
