Please contact me if you have any questions, comments or concerns.  
Matthew Kirk

### Service Description

Services are to be provided approximately every three months with 4 treatments each year with no additional charge for retreatments when requested. Service includes preventative and remediation treatment for common structure invading pests including roaches, ants, beetles and other occasional invaders. Mice and rats can be treated on as needed basis using rodent bait. Service does not include fleas, ticks, bedbugs or wood destroying organisms such as termites. These pests can be treated for additional cost with appropriate approval from county representative.
