We are responding to a request from your agency regarding specific unmanned robotics vehicles, consulting, training and/or accessory equipment. Our company offers customized production solutions not readily available at other vendors.

Based on your request, we are the sole provider for the specific component you requested.

We are a small business founded in South Carolina where our headquarters resides, and we also have support offices in Odessa, TX, and Memphis, TN. We are owned and operated by active law enforcement officers. We are the only full-service robotics solutions provider of this product in South Carolina and in the regions of our satellite offices.

The quote includes:

- Airworx Go-Command monitor case System which is a custom designed display system designed for transporting, securely storing and deployment of Airworx M30T drone systems for public safety operations, and includes Airworx UltraBright monitors, custom foam storage and wireless casting from drones
- Our Airworx Go-Command brand is a proprietary and trademarked product produced by Airworx in South Carolina
- Airworx is the sole provider and distributor of Go-Command Vaults and cases in the USA
- There are no authorized resellers of Go-Command products

Any further questions, please contact me.
