Mrs. Vickie Miller, Permit Clerk

RE: Sign Permit
Clark Beverage
240 Madison County Parkway
Canton, Mississippi

Dear Mr. Bryan:

I am writing to apply for a signage permit for the above-referenced project that will include:

- A masonry monument sign (approximately 7.0' wide x 4'6" tall) located within the Madison County Parkway right-of-way, north of the employee driveway entrance off Madison County Parkway (see Figure 1). The cost of this sign is estimated at approximately \$20,000.
- A Coke bottle replica on a concrete base located behind the monument sign in the Madison County Parkway right-of-way. Two options for the replica bottle are currently under evaluation:
 - Relocating an existing replica bottle from one of Clark Beverage's current sites after refurbishing it. (See Figure 2 for the existing replica bottle.)
 - Fabricating a new bottle (see Figure 3). This bottle would be approximately 18' tall (including the base) and 6' in diameter.

As requested, I have provided:

- A sketch showing the distance of the monument sign and Coke bottle from the face of curb (See Figure 4),
- A sight distance study, which illustrates that neither the monument sign nor the Coke bottle will impact sight distance at the employee entrance (See Figure 5). This is a view taken from southbound Madison County Parkway looking towards the site.
- A site plan showing the location of each of these items on the site, and
- A landscape plan detailing the required landscaping around the monument sign and the Coke bottle.

Page 2

The property owner is Clark Beverage Group, Inc. - 300 Oakland Flatrock Road, Oakland, Kentucky 42159.

The general contractor for the project is Design Group Facilities Solutions – 5 Chenell Drive, Box 3, Concord, New Hampshire 03301.

Please let me know what other information you would need from us to process this sign permit.

Respectfully,

Vionna J. Adams
DG Architectural and Engineering Facility Solutions, PLLC
