and above Issue # in wire description.]

Funds paid by check will be held for five (5) business days prior to making the applicable call or debt service payment to ensure the funds are available. For this reason, please ensure checks are received at least five business (5) days prior to the applicable payment date or select another method of payment. Funds may also be transmitted through ACH or wire, but must be received by 10:00 A.M. on the payment date to ensure timely payment processing. Should the applicable governing instrument require a specific number of lead days for payments to be received, the Issuer/Obligor should comply with those requirements. Failing to do so could result in a default of the bond issue. The timelines noted above are strictly related to Trustmark's ability to process the applicable payment on payment date.
