Hey Cynthia,

It's our every two-year public meeting time again. CMPDD, serving as the Metropolitan Planning Organization (MPO) for the Jackson Urbanized Area, is required to hold a public meeting in each of the counties within the MPO planning area when we develop a new Transportation Improvement Program (TIP) document. The public meeting is to solicit public comments on the document. I'm reaching out to see if we could use the Madison County BOS room for a public meeting from 4-6 p.m. on July 25th?
