

## PURCHASING DEPARTMENT

Madison County Board of Supervisors  
146 West Center Street / Post Office Box 608  
Canton, MS 39046  
Office (601)-855-5534 ~ Fax (601) 859-5875

June 17, 2024

**To:** Board of Supervisors  
**From:** Kesha Jackson, Purchasing Clerk *YKJ*  
**Subject:** Consideration of Declaration of Sole Source

The Madison County Sheriff Department has requisitioned for Clearview AI to services, maintenance, hardware and licenses for digital evidence. As the attached letter, indicates that Clearview AI is the sole source provider of all Clearview AI software products.

I recommend that the board declare this as a Sole Source, authorize the issuance of a purchase order to Clearview AI for \$5,650.00 on basic 1-5 licenses, services and recurring fees for 3 year term per the attached quote.

Thank you in advance for your consideration of the above recommendations.

May 20224

# CLEARVIEW AI PROPOSAL

Proposal for: MS-Madison County Sheriff's Office

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed in whole or in part for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of or in connection with the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. This proposal contains trade secrets and commercial or financial information that are either specifically exempted from disclosure by statute or are privileged or confidential within the meaning of exemption that is set forth in 5 USC 552 (b) (3) and (4), respectively, of the Freedom of Information Act, 5 USC 552, and the disclosure of which could invoke the criminal sanctions of 18 USC 1905. Source Selection Information-See FAR 2.101 and 3.104

## 1.1 CLEARVIEW AI OVERVIEW

---

### 1.1.1 CAPABILITIES STATEMENT

Clearview AI's mission is to enhance national security, drastically reduce crime, fraud, and risk to make communities safer and keep commerce secure. In 2019, federal, state, and local police departments across America began using Clearview AI as a solution to help solve crime and ensure public safety. As a platform for intelligence and identity management, it has quickly become a favored resource for law enforcement, helping solve even the most difficult crimes. Today, many law enforcement agencies trust Clearview AI's one-of-a-kind, facial search technology.

Clearview AI's revolutionary investigative platform allows investigators to search any facial image of a suspect, victim, or other person of interest against over 30 billion online images. By using this tool to efficiently process information investigators already possess, Clearview AI helps investigators identify those without a prior arrest record, without an online presence, without a DMV record, or others that would often otherwise go unidentified. Our solutions help to identify persons of interest, criminal offenders, terrorists, human traffickers, and child predators. Clearview AI also helps clients accelerate their investigations, meaning they can do more with less.

We appreciate the confidence you have in Clearview AI and welcome the opportunity to work with your agency by providing solutions which help in your mission to solve crimes and ensure National Security. It is our understanding that this procurement can also serve as the basis for sharing intelligence with other fellow domestic and international Public Safety and Intelligence organizations. If awarded this important opportunity, we will leverage our proprietary online database and facial recognition solution to provide a more custom service to meet or exceed your agency and national expectations and to meet regional and national privacy compliance and data protection requirements.

## 1.2 ABOUT CLEARVIEW AI

---

Clearview AI is a privately-owned, U.S. based company, dedicated to innovating and providing the most cutting-edge technology to law enforcement to investigate crimes, enhance public safety and provide justice to victims.

We believe law enforcement should have the most cutting-edge technology available to investigate crimes, enhance public safety, and provide justice to victims. And that's why we developed a revolutionary, web-based intelligence platform for law enforcement to use as a tool to help generate high-quality investigative leads. Our platform, powered by facial recognition technology, includes the largest

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed in whole or in part for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of or in connection with the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. This proposal contains trade secrets and commercial or financial information that are either specifically exempted from disclosure by statute or are privileged or confidential within the meaning of exemption that is set forth in 5 USC 552 (b) (3) and (4), respectively, of the Freedom of Information Act, 5 USC 552, and the disclosure of which could invoke the criminal sanctions of 18 USC 1905. Source Selection Information See FAR 2.101 and 3.104.

known database of facial images sourced from public-only web sources, including news media, mugshot websites, public social media, and other open sources.

Our solutions allow agencies to gain intelligence and disrupt crime by revealing leads, insights and relationships to help investigators solve both simple and complex crimes, increase officer and public safety, and keep our communities and families safer.

### 1.2.1 NIST: #1 ALGORITHM RANK IN THE UNITED STATES

Clearview AI's first algorithm submission to NIST's latest Face Recognition Vendor Test ("FRVT") ranked #1 in the U.S. for its performance in matching Visa Photos (99.81%), Mugshot Photos (99.76%), Visa border photos (99.7%) and Border Photos (99.42%), and ranked in top five worldwide in all of these categories out of 650 algorithms.

In the most difficult category of facial recognition tests, "Wild Photos", Clearview AI's algorithm ranked #1 in the U.S. and #2 worldwide. In another key test that evaluates demographic accuracy, Clearview AI's algorithm consistently achieved greater than 99% accuracy across all demographics.

Clearview AI has been instrumental in thousands of cases including finding abducted children, identifying endangered dementia cases, and apprehending drug traffickers, sex offenders, and other violent criminals. Our database is the most representative of the population and is not limited to criminal offenders (mugshot database). With over 30 billion publicly available images, Clearview AI's database covers a multitude of ages, ethnicities, and physical characteristics.

### 1.2.2 KEY BENEFITS

- **HIGHLY EFFICIENT** Allows agencies to address manpower and resource deficiencies by providing high-probability investigative leads within a few seconds versus days or months.
- **INCREASE OFFICER, VICTIM + PUBLIC SAFETY** Uncover actionable intelligence with powerful tools to create cold case notification alerts. Support intelligence to validate suspect, victim and person of interest identities that is often impossible using legacy identity tools.
- **DATA YOU CAN'T FIND ANYWHERE ELSE** Clearview AI is the only facial recognition company that provides billions of faces captured on the open web and "in the wild", offering the highest probability of a successful match using the Clearview AI patented neural network algorithm and accuracy across all demographics.
- **CUSTOMIZABLE GALLERIES** Users can import their own private, customized facial datasets such as mugshot repositories, customized watchlists, or any other facial database

99 Wall Street #5730  
New York, N.Y. 10005

www.clearview.ai  
info@clearview.ai

4

- **30+ BILLION FACIAL IMAGE DATABASE** Clearview AI images are sourced from social media posts, personal and professional websites, news articles, online mugshots, criminal databases, public record sites and thousands of other open sources.

## 1.3 SECURITY & SOC2 COMPLIANCE

---

### 1.3.1 SOC2 CERTIFICATION

Clearview AI has successfully completed its System and Organization Controls 2 (SOC 2) examination certifying the company maintains effective controls over the security and processing integrity of its clients' data. The examination was conducted by BARR Advisory, P.A.

SOC 2 is an auditing procedure conducted by licensed and regulated certified public accountants that rigorously reviews data service providers to ensure the secure management and accurate processing of data. It is widely considered the highest standard of cybersecurity certification and is intended to protect company's interests and intellectual property when they engage data service providers.

The American Institute of CPAs (AICPA) outlines principles and criteria for SOC 2 examinations which include exacting standards for security, cybersecurity, availability, process integrity and confidentiality.

### 1.3.2 DATA STORAGE & SECURITY

We recognize that data storage and security concerns are of tremendous importance to public safety agencies. We protect data in four ways:

- Routine automated code scans pinpoint vulnerabilities or dependencies within our source code. We patch every issue upon discovery.
- Regular professional code audits and a bug bounty program with an industry-leading provider.
- Encrypt all traffic to the latest TLS specifications and protect it with Cloudflare reverse proxy technology as it is routed through Clearview AI's secure data center.

Store data on multiple servers inside a secured data center in Northern Virginia with internal levels of access control.

## BASIC & PRO

### Basic Includes:

- **Core functions and capabilities necessary to perform facial identification and generate high-quality investigative leads.**
- **Access to #1 ranked facial recognition platform to aid in the identification & investigation of persons of interest.**
- **Access the largest known database of 30+ billion facial images sourced from public-only web sources, including new media, mugshot websites, public social media, & many other open sources.**
- **User your own database of images with private galleries (i.e. mugshots)**
- **Platform upgrades that are deployed on a regular basis**
- **Basic Support via email and chat offered Monday-Friday, between 9a-5p EST.**
- **An assigned Customer Success Manager to assist you.**

### Pro includes:

- **Premium features that offer advanced functionality for facial analysis, providing significant improvements to intelligence gathering -- All Basic package features, plus:**
- **[Currently Implemented]. Still Image Enhancement: Extract the highest quality images from video footage and eliminate the need to capture, crop, and upload screenshots during an investigation.**
- **[Currently Implemented]. Image Enhancement: Improve the quality of a probe image to achieve better results. Features include cropping, rotating, brightening, flipping, and sharpening the probe image.**
- **[Future Implementation]. Photo Lineup: Generate a six pack of highly similar faces for more reliable eyewitness identification.**
- **[Currently Implemented]. Deconfliction: Enhance interagency collaboration and information sharing**
- **Advanced Support: Engineering resource available for deployment guidance, integration support, and issue review and resolution.**

We offer 3 year price lock agreements. This option allows you to budget for 3 years without the risk of a pricing increase. With the 3 year price lock agreement, you have a couple of options:

- You will be invoiced for Year 1. At the end of Year 1, if you do not have funding for year 2, you will notify us in writing. You will not have access to the platform and will not have to pay for year 2. At the end of year 2, when you have funding, you can come back onto the platform at the locked in rate.
  - Year 1: Invoiced upon execution of agreement
  - Year 2: Invoiced on year 1 anniversary of agreement execution
  - Year 3: Invoiced on year 2 anniversary of agreement execution
- If you pay all 3 years upfront a discount is applied
  - Years 1, 2, and 3 total
  - Discount for Paying ALL 3 years upfront: -\$discount
  - Total Due if paying ALL 3 years upfront: \$Grand Total Due
- I am able to prorate months to get you to a budget year
- We have a sole source statement; but we can procure through a contract vehicle if your agency requires that. ***Please be aware there are additional fees associated with using the contract vehicle.***

To move forward with a formal agreement, I need to know the following to prepare it:

- Which type of procurement works best for your agency?
  - 1 year agreement
  - 3 year price lock
  - Pay ALL 3 years upfront.
- Billing Contact: Name/Phone/Email
- Primary Admin: Name/Rank/Phone/Email
- Signatory: Name/Rank/Phone/Email

## Clearview AI Unique Attributes/Sole Source (2024)

---

Clearview AI is a unique facial recognition search engine that enables users to search publicly available online images. Clearview AI's proprietary technology enables a user to upload an image of a face and generate a set of search results that contains images of highly visually similar faces from images located across the internet. To the best of our knowledge, Clearview AI is the sole provider of the following combination of functionalities, features, and services.

Unique attributes of Clearview AI's services include:

- Facial recognition searches of public only facial imagery for the purposes of supporting official, authorized work of government agencies.
- Providing facial images alongside links to webpages for official authorized government work by government agencies.
- Tools to facilitate system oversight, compliance with user agency policies, auditing, and reporting features.
- A unified platform of identity management, allowing for customized gallery enrollments, still image extraction, public online imagery access, and facial recognition capability.

Clearview AI's first algorithm submission to NIST's latest Face Recognition Vendor Test ("FRVT") in October 2021 ranked No. 1 in the U.S. for its performance in matching VISA Photos (99.81%), MUGSHOT Photos (99.76%), VISABORDER photos (99.7%) and BORDER Photos (99.42 percent) and ranked in top five worldwide in all of these categories out of 650 algorithms. In the most difficult category of facial recognition tests – "WILD Photos" – Clearview AI's algorithm ranked No. 1 in the U.S. and No. 2 worldwide. In another key test that evaluates demographic accuracy, Clearview AI's algorithm consistently achieved greater than 99% accuracy across all demographics.<sup>1</sup>

Clearview AI has been awarded several U.S. patents for its unique facial recognition platform and capabilities one of which is, "**Methods for Providing Information About a Person Based on Facial Recognition**" - U.S. Patent No. 11,250,266, issued on February 15, 2022. This patent is the first of its kind for a facial recognition company and was awarded to Clearview AI for its ability to gather publicly available information from the open internet (social media sites, mugshots, news sites and more) and then accurately match similar photos using its proprietary facial recognition algorithm.

The above statement is made in good faith and reflects a diligent and current market assessment.

*Cam-Hoan Ton-That*

**Hoan Ton-That**

Founder & Chief Executive Officer  
Clearview AI, Inc.

---

<sup>1</sup> This accuracy percentage refers to the percentages of true positives results returned on the NIST Facial Recognition Vendor 1:1 Verification Test, or the Megaface Rank 50 FaceScrub Test. Clearview AI's search results are produced using an algorithm and match threshold consistent with greater than 99% accuracy on those tests.
