Total Up-front	\$4,991.50 USD

*Recurring fees billed annually with 1 upfront payment(s)

ACCEPT QUOTE

Terms and Conditions

Taxes and shipping not included in price estimate.

Upon acceptance of this quote, a BadgePass ONE account will be created with an initial user. The initial user will receive an e-mail to activate the account and add payment method (credit card or ACH). Payment will be automatically processed when subscription agreement and any printer plan agreement(s) are signed during account activation. The account's billing cycle will be set to the date when the master agreement is signed. If printer plans are added at a later date and/or subscription package is adjusted through the portal, payment for those changes will occur at that time.

Printer plan overages and/or subscription overages will be charged monthly on the billing cycle date established during account creation following the month they occurred in.

Customer must provide a DHCP-enabled ethernet connection with internet access for the Connect card printer to work correctly. If MAC filtering is enabled, the customer will need to add the Connect printer's MAC address to the network's allowed devices list to enable use. Please contact our technical support team with any questions or concerns on connectivity
