Dear Supervisors,

Holmes Community College in Goodman, MS along with their Board of Directors have agreed to repaint the 2002 Heavy Rescue that the County purchased this year. The County would only be required to purchase the supplies needed for the project. Because of the large size of the Heavy Rescue, they expect the project to take two to three months to complete. It will be painted to match the Ladder Truck. I need the approval from the Madison County Board of Supervisors for this project to move forward.

Respectfully,

Minor Norman
Fire Coordinator
