Re: Permission to Work off County Right-of-Way
Blackberry Creek Road

The Engineering Department requests permission to work off right of way on Blackberry Creek Road. The road currently floods due to insufficient capacity under the driveway on parcel 081I-31-006/04.00. With the current topography it would be much easier and cheaper to install the pipes off the right-of-which as this would require much less digging and regrading of the area. The property owners have agreed to this and will provide the county, at no cost, a temporary construction easement in order to install the needed additional pipes.
