Madison County Board of Supervisors Letter of Support for the Canton Transportation Plan

Dear Delta Regional Authority,

On behalf of the Madison County Board of Supervisors, we are pleased to express our support for the City of Canton, Mississippi application for the 2025 Strategic Planning Program Funding to develop the Canton Transportation Plan. This effort is crucial for improving infrastructure, enhancing mobility, and fostering economic growth in Canton, Madison County, and the wider region.

A well-planned and efficient transportation network is essential for the long-term success of our communities. The impact of this plan extends beyond Canton, influencing connectivity and development throughout Madison County and neighboring areas. Through regional collaboration, we can ensure that our transportation system supports sustainable growth, strengthens economic opportunities, and improves the quality of life for our residents.

We appreciate the opportunity to support this effort and look forward to continuing our partnership in advancing a transportation system that meets the needs of our growing region

Sincerely,

Gerald Steen, Board President

Madison County Board of Supervisors
