Project overview

Recipients are required to enter projects funded through SLFRF funds as part of their Project and Expenditure Report. Projects can be entered, viewed, and updated from this screen.

Introduction/bulk templates

All projects, regardless of expenditure category, require a set of "standard" data fields. Some of these fields, such as project name and project ID, are static and do not change across reporting periods. Other fields, such as status of completion and total obligations, will change across reporting periods.

Recipient profile

Note: bulk upload templates will appear once you have selected the project expenditure category.

Project overview

You may need to refresh your browser screen to see your new entries.

Previous Updates:

Subrecipients/beneficiaries/contractors

New feature below allowing a project to be locked that meet the criteria of being in a Complete status and 100% Obligated and Expended. This feature is only available if the status of the project is identified as Complete, the Total Cumulative Obligations and Expenditures equal the Adopted Budget (Note, if there is no Adopted Budget, the Expenditures will need to be 100% of the Obligations to

Subawards/direct payments

enable this feature). You may select the Lock Icon on the project line to see if your project is eligible to be locked. If the Project Status, the Total Cumulative Obligations and Total Cumulative Expenditures are all Green, the Lock Project button will be available to be selected.

Expenditures

New Updates:

Recipient specific

Treasury recognizes that recipients are reporting a broad set of projects under the following expenditure categories. It may be the case that a recipient is reporting a project under an expenditure category that is an eligible use of SLFRF funds for that expenditure category, in accordance with the 2022 final rule, but is not designed to meet the associated performance indicators. In these instances, recipients may report a "0" in these data fields.

Certification

- Use of Evidence (for relevant ECs noted in Appendix E)
- Household Assistance (EC 2.2), Long-Term Housing Security (EC 2.15-2.16) and Housing Support (EC 2.17-2.18)
- Assistance to Unemployed or Underemployed Workers (EC 2.10) and Community Violence Interventions (EC 1.11)
- Addressing Educational Disparities (EC 2.24-2.26) and Addressing Impacts of Lost Instructional Time (EC 2.27)
- Healthy Childhood Environments (EC 2.11-2.14)

After inputting data in the Recipient Specific section for Revenue Replacement, you must also create/update an associated project(s) in the Project Overview section in the 6-Revenue Replacement Expenditure Category to report the amount of revenue loss funds budgeted, obligated and expended, including a project description(s) that specifies the eligible use of those funds.

If your most recent fiscal year ended on or after October 1, 2024, have you expended \$1,000,000 or more in federal awards?

Have you submitted a single audit or program specific audit report to the Federal Audit Clearinghouse (FAC)?

Please explain why you did not submit an audit to the FAC.

Audit is in progress.

Alternative Compliance Examination Engagement (ACEE)

For certain entities that may be new to expending more than \$1,000,000 for fiscal years ending on or after October 1, 2024 and are now subject to Single Audit Act requirements, the U.S. Department of the Treasury (Treasury), together with the Office of Management and Budget and other stakeholders, developed the Alternative Compliance Examination Engagement (ACEE).

For qualified SLFRF recipients, the ACEE is a voluntary alternative to a required full Single Audit that is less burdensome, but still upholds good stewardship by focusing on Activities Allowed and Unallowed and Allowable Cost/Cost Principles.

Would you like to submit an ACEE instead of the Single Audit?
