Re: Opening New Bank Account – NG911 (Next Generation) Operational 70%

As required by the Mississippi Emergency Communications Authority, NG911 operational funds are to be separated and preferably held in a different bank account from NG911 implementation funds.

As such, I ask the Madison County Board of Supervisors to authorize the Chancery Clerk, Ronny Lott, to open a new bank account at Renasant Bank titled NG911 Operational Funds 70% to hold funds related to 911 emergency communications.
