Re: Request for Authorization: Next Generation 911 (NG911) Fund Transfers

We recently received updated regulatory guidance regarding the management of Next Generation 911 (NG911) funds. This directive prefers all NG911 revenues to be in the dedicated NG911 bank accounts within the same calendar month they are received.

Because these revenues may arrive after our second monthly board meeting, we cannot always wait for scheduled board approval to complete the transfers on time. Therefore, we are seeking authority to transfer NG911 funds as necessary and required to maintain strict compliance with these new guidelines.
