Re: Maintenance of State Aid Projects (Minor Maintenance, ROW Clearing, Etc.)
Madison County, MS

Gentlemen,

The Road Department has been working on the general maintenance of previous State Aid Projects for a couple of months now and are around 85% complete. The remaining 15% will require more labor and equipment to accomplish State Aid's goal of cleaning debris around bridges and box culverts. To accomplish this, the County Engineer will need to be involved with the Road Department to pull previous plans, go to the job site to locate and mark the R.O.W. to insure that we stay within the limits of the projects. Minor surveying may also be required to locate and mark the R.O.W.

I am requesting that The Board authorize Warnock and Associates to assist the Road Department with the remainder of the maintenance of State Aid projects.

In closing, thank you for allowing Warnock & Associates to serve you. If you have any questions, please don't hesitate to contact me at 601-855-2250.

Sincerely,

Warnock & Associates, LLC

Jimmy Vickers
Construction Manager
