Subject: Re: Cane Creek Road Bridge Replacement - Utility Relocations

The Board will require a request letter and change order at the time an overrun becomes evident.

Chad,
Do you see where we need to do anything or contact the Board? The City would just like to make everyone aware of it up front in case it happens to run over a little.
Thanks,

Matthew Miller, P.E., P.L.S.

Matt,

The Madison County Board of Supervisors has authorized reimbursement to the Town of Flora up to \$30,000. The Board would have to further authorize reimbursement of any additional amount. I am Chad Plumb at Warnock and Associates on this response. They are the County's engineer. As such, they may be in a better position to advise you on this than I am. I cannot tell you that the Board would or would not authorize additional reimbursement to cover an overrun. If an overrun occurs, or it becomes apparent that it will, I would suggest contacting the Supervisors and advising them of the situation.

Mark,
 FYI, the Town of Flora held a pre-con meeting with the contractor on Tuesday, and has given him a notice to proceed date of Monday, March 31, 2014. During the pre-con the contractor noted that due to the depth of the ditch and depending on the actual depth of the utility lines, he believes we will run over our boring quantity some amount. We currently have 300' set up for both bores, but the contractor thinks it will actually be closer to 335'. This could increase the cost of the project by approximately \$3000.

As you are aware, the quantities we put in these proposals are strictly an estimate, but I just wanted to make sure you and the County were aware of this up front in case the final contract amount ran over a little. If this is an issue, or you need to discuss further, please feel free to give me a call.

Thanks,

Matthew Miller, P.E., P.L.S.
