Re: Request for Stop Signs

Supervisor Banks:

As per our conversation Lake Caroline Board of Directors would like to request the Madison County Board of Supervisors approve and install stop signs at the following locations:

Install a four way stop sign at Caroline Crossing and Covey Run. Covey Run is on the east side of this intersection and Savoy Park is on the west side of intersection. The purpose of the stop signs is to slow traffic down.

Install a three way stop at the entrance to Tuscany Townhouses and Caroline Boulevard. This is a very dangerous intersection in the middle of a very sharp "S" curve. To help reduce the danger Lake Caroline Owners Association is currently taking out the high growing plants which hide the line of sight to oncoming traffic. Much lower plantings will be placed on the burns around the "S" curve. It is very important to reduce traffic speed through this dangerous curve as there are people walking, running and bicycling along this narrow street along with heavy traffic.

Thank you and the Madison County Road Department for your support to Lake Caroline.

Yours truly,

Douglas L. Jones
Business Manager
